

CO 60 RESURFACING PROJECT

OVERVIEW

On May 1, 2017, work will begin on the Colorado Department of Transportation's Resurfacing project on CO 60 from US Highway 287 to Milliken. The project is expected to last until October 2017.

Coulson Excavating Co. of Loveland, CO is the contractor for this \$5.5 million project.

The project will upgrade the road surface and improve safety along CO 60 from US Highway 287 to Milliken, CO, by repaving sections of the highway. Additional work includes seeding, improvements of guardrails and curb ramps, and the replacement of an irrigation pipe under CO 60.

There will be various lane and shoulder closures in both eastbound and westbound directions along CO 60 through the scheduled completion date in October 2017. Motorists should pay close attention to posted speed limits and use caution when traveling through the construction zone.

CONTACT

If you have questions about the project, contact the public information team. You will receive a response within 24 business hours.
